

Are you an experienced UX designer seeking to work on the UX big picture? Seek no more.

LeadIn Oy (www.leadin.fi) is a fast-growing, profitable User Experience agency providing premium class services to our clients in a variety of domains. To respond to increasing demand towards our services, we are again extending our team. Check below if you qualify, and apply today!

This time we are looking to hire a **Senior UX Designer** to join our cutting-edge UX team. We offer competitive pay and benefits, and a unique opportunity to take a look at the big picture of the UX landscape across domains and professions. “Hyvä meininki” is the way to go!

You will work in a variety of different UX projects. Depending on your skills and aspirations you may, for instance,

- design web or mobile user interfaces for our clients
- manage UX projects by working closely with our clients and partners
- help our clients to webify, tabletize or mobilize their legacy services
- plan and run design and concepting sprints and workshops
- evaluate user interfaces

You are highly skilled in interaction design, and know tools such as Adobe Illustrator and MS Visio inside out. An eye for visual appearance, and prototyping with e.g. QML or HTML5 are highly appreciated. You are capable of designing the finest UI details – and taking a helicopter view and steer an entire design project. Working with software developers comes easy to you. A proven track record of successfully managed and completed UX projects is expected.

You are a team player, however also comfortable working independently. You have a customer-oriented mindset towards delivering extremely high quality results that constantly exceed customers’ expectations. You communicate fluently in both Finnish and English. You have at least 7 years of professional UX experience.

This is a permanent position, located in Tampere. Some domestic and/or international travel is necessary.

Ideally, you could join us during February-March 2012.

If you are willing to take a bold step ahead into the future of UX, do not hesitate to contact us.
